

Money Management Spending Worksheet for Kids (Ages 6-10)

Legend:

Exercise:

You've saved up \$30.00 and you are ready to do a little shopping. How much money will each scenario cost **AND** how much will you have left?

				Total:
1				
2				
3				
4				
5				
6				

Which would you choose? Or would you choose something different? Why?

What are some other ways you might choose to use your money?
